C1 SUPPLEMENTAL TEXT

A. This Amendment No. 03 is issued to answer contractor questions and provide additional information.

B. Q & A

1. Question: We are in receipt of the recently issued Amendment #2. In the amendment, we noticed the reiteration of Paragraph L.2.1 under "Technical Approach", offeror must accomplish at least 95% of the work. Could you please clarify whether or not a proposal submitted by a general contractor with pricing based on the actual onsite work being performed by subcontractors is acceptable?

**Response:** Joint ventures are permitted; if the proposer is a joint venture, the proposer must provide all required solicitation information for all parties. The proposal shall include information which identifies the responsibilities for each entity under this contract.

2. Question: Secondly, there is reference in the Painting specification 0099000-2 item 1.4, D to submitting certification that the painting subcontractor has performed work in accordance with SSPC QP1. Please confirm that the painting subcontract must be SSPC QP1 certified prior to submission of the proposal.

**Response:** The intent is that the painting contractor be certified in accordance with SSPC QP1 prior to the proposal, otherwise there would be no way of assuring that they would be certified post proposal.

3. Question: Please provide the contract amount for the painting of the Dome as executed in 2003 with the Aulson Company.

**Response:** The scope of work for the Aulson contract is different from the scope of work for this project and therefore has no relevance; this information will not be released.

4. Question: M1.1- Technical Approach requires that "offeror must accomplish at least 95% of the work." We would like to propose that as a General Contractor you permit us to enter into a Teaming Agreement with our major Subcontractors which include painting and scaffolding. Please advise if this would be acceptable to the AOC and meet the requirements of the RFP.

**Response:** See our response to Question #1.

**NOTES:**

1. The load capacity of the roof hoist mentioned in our response to Question #2 (Amendment 02) is 1,000 pounds.

2. The due date and time for receipt of offers remains October 6, 2009, 1:00 PM.
